Dear Harold,

I'm sorry to hear you are in the hospital. Keep one eye open for one of those CIA "after-hours visits." Rumor has it they zapped Frank Sturgis at 2:30 am. when he was in a hospital bed in Miami. And there are rumors that Reagan & Nixon were both visited by the CIA in such circumstances.

I recently was stunned by info indicating John Judge & his "Coalition of Political Assassinations" is 100% CIA! He denies it, but I'm 85% sure he's lying. Is there no end to CIA machinations?

I should tell you that I used to ask Bud why he didn't put you on our "Ct IA." He said you were so verbally skilled you'd take it over. I knew he was lying - so I'd almost always bust out laughing. He knew I knew he was B.S.-ing me & then we'd both laugh.

Get well soon! Keep up the good fight.

Best wishes,

Ken

P.S. I should tell you that I was recently offered a rather substantial bribe if I'd stop my own JFK work. It has been tempting, let me assure you. I would be well off & all the intense harassment (at times) would stop. I'm amazed that they don't realize that a big bribe offer & harassment prove you are right. It's a "confirmation" - and it comes to us when we are far from being 100% sure. Those CIA people are incredibly stupid. That's why they've already lost. I believe we "won" about 1½ yrs. ago.
